LITTLE ITEMS OF LOCAL INTEREST

—For Sale: Heavy strain bronze gobblers, over 20 lbs., \$8. Apply Manchester, Grainger. 6tp

—Brood Sows For Sale. Bred and in good shape, due in latter part of April. —Apply to E. Spry. 9½ miles north of Carbon. 1f

Mr. and Mrs. G. L. Brown and family are leaving Carbon on Tuesday. Mrs. Brown and family will go east for the summer, while Mr. Brown will stay in Calgary.

Frank Seymour has completed the installation of an electric motor in his blacksmith shop.

Mrs. M. Greenier of Hesketh, was a visitor in Carbon on Monday.

T. R. Olive is a business visitor in Calgary this week.

L. G. McQuade is able to be around again after a few days illness with the 'flu.

Mrs. A. F. McKibbin arrived in Carbon on Friday last to join her husband. They will take up residence in Bob Shield's house.

A farewell party was held at the home of Mr. and Mrs. H. A. English in honor of Miss Margaret King, who is leaving for her home in British Columbia, after spending the past few months visiting her sister, Mrs. McKelvey.

About twenty guests were present and a most enjoyable time spent in games and contests.

—1924 Ford coupe for sale, or will trade for cattle. Apply to J. H. Cunningham, Carbon. 2tp

The C.G.I.T. play, "Patsy," which was to have been put on in the Masonic hall on Friday night, has been postponed till Tuesday night, March 1st.

FOR SALE: Good Seed Oats. Threshed before rains. Strong germination test. 80c per bu. Also Buff Orpington Roosters from bred to lay strain, \$1.50 each. James Clayton, Box 181, Carbon. 3tp

Grainger Notes

A very enjoyable evening was spent last Wednesday at the home of J.W. Cochlin in the form of a five hundred party.

Mr. Cocklin and Miss Pearl Smith were host and hostess of the evening. The guests were:

Mr. and Mrs. W. H. Grainger, Mr. and Mrs. Henry Hutton, Mr. and Mrs. S. D. MacMillan, Mr. and Mrs. E. H. VanWart, Miss Phyllis VanWart, W. D. MacDonald, Frank Adams and Robert VanWart.

The ladies' first prize went to Mrs. VanWart, while Frank Adams secured the gent's prize.

Mr. and Mrs. Chester Crockett have just returned from a short visit to Calgary.

At the municipal election held in Acme for the three new councillors for divisions 2, 4, 6, E. M. Brown was returned to office by acclamation in Division 4, Henry Hutton and Mr. Howe are candidates for councillor in Div. 2, Mr. R. Brown succeeded G. Hope in Div. 6.

The farm of G. F. VanWart has been sold to Phillip Keime of Acme

Gamble Items

Mr. Gustav Burger returned last week from Minnesota, where he has visited friends since Christmas.

The Tom Whites are moving this week to their homestead, where his brother Charlie has been living.

Mr. Charlie White and family are moving to the house now occupied by L. Martin. Mr. Martin has rented Alex Ritchie's farm.

We expect to have our last toboggan ride Saturday afternoon at Mr. Congo's, place so after you've done your bit by voting, and voting early, bring along a cake or Sandwiches and have some real rides.

SEED OATS

If I can get sufficient orders to enable me to supply a car of Peace River, Cleaned, Seed Oats, I can sell them at 77c per bu. off car. Sample can be seen by applying at Alberta Pacific Grain Co. office. 2c

MUNICIPAL COUNCIL MEETING

The Council of the Municipal District of Carbon No. 278, held their regular meeting on Saturday, February 19th, at 10 a.m., all the councillors being present except Mr. Webber. Besides the general business of communications and accounts, settlements were agreed to in connection with road ways on Soldier Settlement land and Canadian Pacific Railway lands. Matters of application for assistance under the Mother's Allowance Act and other relief were disposed of.

Reeve S. N. Wright was appointed a representative of the Hail Insurance Convention on March 19.

A matter of considerable interest was the report of the delegates, who interviewed the Government with the matter of roads, boundaries of the Municipalities and the account of the Central Alberta Sanatorium. It was pointed out that this Sanatorium account had accumulated at Dec. 31, 1926, to \$6,576.00, but that the Government officials had agreed with delegates, Wright and Webber, that they would accept 50 p.c. of this amount to settle the account in full.

Completing the first 3,200 miles of a ten thousand mile journey from Liverpool to Osaka, Japan, thirty canaries valued at a hundred pounds sterling, arrived at the Canadian Pacific Express Company sheds in Montreal recently and left from the Windsor street station for Vancouver. They came over on Canadian Pacific liner Montroyal to Saint John and although they had experienced somewhat of a stormy crossing, were in fine feather and singing at the top of their voices.

Completing a two month visit to Canada during which he has traversed the Dominion from Quebec to Victoria, returning through the United States, C. C. E. Young, in charge of first-class booking office of the Canadian Pacific Railway in London, Eng., seen at headquarters of the system in Montreal recently, declared that the country had been a revelation to him, fully explaining the great attraction it is increasingly exercising on tourists. "The great facility of travel, luxuriousness of the hotels and the opportunity for seeing practically virgin territory make up a combination of advantages that are perhaps not to be found elsewhere in the world today," he said.

MUNICIPAL COUNCIL RECEIVES THANKS

The regular meeting and nomination of the Municipal District of Carbon was held in the Masonic hall, Carbon, on Saturday afternoon, Feb. 16, with Mr. L. B. Hart, returning officer, acting as chairman. The Auditors Financial Statement and Annual Returns of the District was reviewed and a few questions were asked about various items.

The matter of expenditure for weed destruction and indignant relief for the year were explained by the Reeve. A number of questions and explanations of the Ward System of electing Councillors were offered.

At the close of the discussions a hearty vote of thanks was tendered to the Council and the officials of the Municipality for the conscientious attention given in the conducting of the affairs of the Municipality during the past year.

Messrs. C. M. Stenberg, R. S. Near and George H. Webber are the retiring councillors this year. The following nominations were received for election to the council:

Messrs. Stenberg, Near, Webber and T. J. King, a new aspirant for Municipal honors. Although Mr. King has never permitted his name to appear on a Municipal ballot before, he is an old time resident of the Municipality.

The election will be held on Saturday, February 26, 1927. Polls open from 9 a.m. to 5 p.m. On the same day a vote will be taken on a by-law to change the method of electing councillors from the present system to the ward system. On the By-law vote only those persons whose name appears on the Tax Roll have a right to vote.

Swalwell

Miss Huston from Elnora was visiting her brother and sister-in-law, Mr. and Mrs. M. Huston, over the week end. She returned to Elnora on Monday morning.

We understand that Miss Joy Duncan is a patient in the Holy Cross Hospital, Calgary, and has undergone an operation for appendicitis. She is now doing as well as can be expected.

W. Braden has disposed of his farm and is leaving the district. He will be taking up his abode near Langdon, Mr. C. Ross is the purchaser of the Braden farm and will be in occupation in the very near future.

Emil Savoski has also disposed of his farm the buyer being Mr. J. Klason.

All our local curlers are now back from their various fields of play and will have to be content with the less exciting games on our own ice.

W. E. Mann has returned after a two week's absence in Calgary, where he was down for the Grand Lodge sessions held last week.

Swalwell Junior hockey team were visitors to Acme over the week end to play a return match with the Acme Juniors. After a series of very disappointing decisions, the official score was, Acme 4, Swalwell 3. The Swalwell line-up was as follows: J. Jordan, goal, O. Tricker and R. Tricker, defence, J. Landeryou centre, S. Taylor, L. wing, E. Tricker, R. Wing.

FOR OVER 30 YEARS

the record of Red Rose Tea is a record of steady progress.

To keep up with the extra demand during 1926 and to further improve the method of packing, so the quality of this fine tea will be more surely protected, the Red Rose Tea packing plant has been completely transformed.

The story of this change will be told in later advertisements.

RED ROSE TEA "is good tea"

RED ROSE ORANGE PEKOE is extra good.

Solving Western Problems

Dr. H. M. Tory, president of the National Research Council and also of the University of Alberta, making appeal in a recent issue of a Canadian periodical for greater aid in the work of research in Canada, says: "Such an organization could in a few years be made to mean far more to industry than all the petty tariff changes about which there is so much agitation."

Dr. Tory is a man of sound economic views, is above playing the game of petty politics, and is one whose opinions carry great weight throughout this whole western country, and, indeed, to an increasing extent throughout the Dominion. His words, above quoted, are, therefore, deserving of attention.

The truth of this statement can hardly be questioned, because, by making production more efficient greater help will be brought to industry in all its branches than can possibly be done by any tariff. Efficiency in one branch of industry assists all other branches whereas tariff changes which are designed to help one particular industry or group of industries very frequently operate to the disadvantage of other industries more or less dependent upon the first group.

The National Research Council is, within the limits of its comparatively small income, practicing what its president preaches as to the undoubted benefits of scientific research applied to the needs of industry. A few days ago announcement was made that research work of really vital importance to all the wheat farmers of western Canada is to be carried on at all the provincial universities of the three prairie provinces in association with the Dominion grain research laboratory at Winnipeg. The particular problem to be tackled is damp and tough grain, the importance of which will be appreciated by every farmer who has sustained loss during the present crop season.

The National Research Council some time ago appointed a special committee on grain research to study various problems connected with the production and marketing of grain, including factors affecting milling and baking quality, commercial grading, and diseases affecting grain plants, particularly rust. This committee now proposes an immediate survey of the methods employed in grain drying, to be followed by a study of the different methods with a view to determining which is most advantageous from the viewpoint of economy and the resulting quality of the dried product.

In order to make investigation as thoroughgoing as possible, the Universities of Manitoba, Saskatchewan and Alberta will engage in the work. Milling and baking test laboratories of the most modern type have already been installed at the Alberta and Saskatchewan Universities and the same equipment is being installed in Manitoba. Dr. Tory has expressed the opinion that it is doubtful if a research of such magnitude has ever before been undertaken in Canada.

Our Prairie Universities are playing a large part in the development of these provinces and in finding solutions for many problems. Research work is necessarily slow. To be of any value it must be most thorough, frequently covering years of study and many tests. Anything haphazard will not do. Because of this, many people are impatient of research work and are critical of money spent on it. But the fact remains that it has been the work of scientists and experts, rather than tariffs, which has made the United States the great industrial nation it is today. The industries of Great Britain built up their world trade, not because of tariffs, but through the application of scientific discoveries. Industrial Germany was the product of research work probably to a greater extent than any other country.

Canada, it must be admitted, has been backward in this respect, and our manufacturers are largely to blame, because for years they have been obsessed with the idea that in Customs tariffs, and in Customs tariffs alone, was prosperity to be found. If the Canadian manufacturers would throw the whole weight of their influence and resources back of the National Research Council, a new and better era in Canadian industry would result.

Children Cry for

**Fletcher's
CASTORIA**

MOTHER:—Fletcher's Castoria is especially prepared to relieve Infants in arms and Children all ages of Constipation, Flatulency, Wind Colic and Diarrhea; allaying Feverishness arising therefrom, and, by regulating the Stomach and Bowels, aids the assimilation of Food; giving natural sleep.

To avoid imitations, always look for the signature of *Dr. H. H. Fletcher*.
Absolutely Harmless—No Opium. Physicians everywhere recommend it.

A Wonderful Age

Seventeen Has Been Heroic Age for Many People

Many are the readers who laughed till they cried over Booth Tarkington's "Seventeen." The hero of that book is a typical boy at an age when momentous subjects swing into his ken. Girls, tall and short, blond and brunette; clothes, his first dress suit, gorgeous neckties, the fancied necessity of shaving twice a week; flowers, bonbons, dates—at seventeen, what a life!

Yet seventeen is an age of something besides these things usually associated with callow youth, George Young, winner of the Catalina Channel swimming contest, is seventeen. Think of the qualities necessary to achieve a swim of 22 miles in cold, rough and dangerous waters. One hundred and two men and women made the start, some of them experienced swimmers for a decade or more, but it was a youth of seventeen who was there at the finish.

Seventeen is an age when most anything might happen. Time and time again it has been a heroic age for some. At that age many a youth has borne the load of the family support, and borne it uncomplainingly. Fortitude, pluck, persistence, audacity, all these belong to the age of seventeen, and because of this fact youth is the wonder of the world. Was it not St. Paul who wrote to a certain young man, "Let no man despise thy youth?"

Swollen Joints, Quickly Limbered Up

Rub On Nerviline

You would be surprised at the wonderful action of "Nerviline" in just such cases. Being thin and not an oil preparation, it is able to penetrate quickly, and down it sinks into the tissues, carrying its healing, soothing action wherever it goes. For stopping muscular or nerve pain, for easing a stiff joint, Nerviline is a complete success. Pain, soreness, stiffness all vanish before the magic power of this wonderful liniment. Nearly fifty years of success proves the merit of Nerviline, which is sold everywhere in large 35 cent bottles.

King and Prince to Exhibit

Prize Birds to be Shown at World's Poultry Congress in Ottawa

Among the exhibits at the World's Congress to be held in Ottawa, Canada, July 27 to August 4, 1927 will be prize birds from the farms of King George V. of Britain, H.R.H. the Prince of Wales and possibly from the famous pens owned by King Albert of Belgium and King Alfonso of Spain.

Exhibits to be shown at the Congress are coming from at least 35 countries all of which will be represented by delegates. No less than 2,500 poultry experts and fanciers are expected from the United States.

The Congress is to be held in Lansdowne Park, Ottawa, where the Central Canada Exhibition is held annually. Extensions to some of the principal buildings on the grounds have been made at a cost of \$250,000, in order to take care of the thousands of exhibits that are coming to the Congress.

That Overseas Trip

The Canadian Pacific Railway are operating through tourist sleeping cars from Winnipeg each week to connect with steamers sailing from Saint John, N.B. This arrangement has been made in order to provide every convenience for overseas travellers. These tourist cars go direct to the ship's side, and assure connection and facilitate transfer from train to steamer. See any ticket agent of the Canadian Pacific for arrangements for bookings and reservations on these cars.

Ice Fall is Perennial

Surpassing any waterfall in grandeur, an ice fall is the boast of Mount McKinley. A large glacier, coming down from a height of 18,500 feet to the 15,000 foot level makes a sheer drop of 3,000 feet. The fall is perennial.

Recognized as a leading specific for the destruction of worms, Mother Graves' Worm Expeller has proved a boon to suffering children everywhere. It seldom fails.

Take away a reckless automobile driver's license and he becomes a common pedestrian, which is about the worst punishment the court could give him.

Canadian Farmer Tells His Experience

"Les" Booth, widely known Ontario farmer, and a sick man for 20 years, suffered daily, only half alive. Now strong, robust, vigorous, credits new found health to Tanlac

Though popularly known as "Les," Mr. Booth's correct first name is George. His home is at 271 Perth St., Brockville. For the past three years he has enjoyed vigorous health but what he endured before then is best told in his own words. "For twenty years my arms, shoulders, back and hips, ached with rheumatism," said Mr. Booth. "Often I had to quit work entirely and I remember one bad spell that kept me in bed for six months."

"My case got to be so chronic that the help ran the farm. I was practically helpless. Even my wrists and hands would swell up so that I couldn't write my name. I dreaded bedtime, for I got no rest, but lay there in agony, waiting for morning. Nervous spells would seize me and I would tremble all over like a leaf. I couldn't get any benefit from my food and had to force myself to eat. My weight was far below normal."

"Three years ago I decided to give Tanlac a good trial, for nothing else had helped me. I could scarcely believe such results were possible as those Tanlac soon showed. The aching stopped, my appetite came back and I could eat heartily. My nights became more restful, too, and I slept

soundly. I gained 16 pounds which I still retain, and I now work hard outdoors from 8 to 10 hours a day. I never have an ache. It's hardly believable! If folks want to know what Tanlac can do, tell them to write to Les Booth, or to come and see me. I'll tell 'em."

If your health is broken from over-work or neglect, profit from Mr. Booth's experience. Try Tanlac, nature's own body builder, made from roots, herbs and barks. Your druggist has it. Over 52 million bottles sold.

Alberta Takes Care of Settlers

Boards of Trade Supply New Comers With Information

Immigrants to the number of 6,118 registered at the Immigration Hall at Edmonton in 1925, as compared with 1,981 in 1925. A large proportion were from the British Isles and the balance from Central Europe. The boards of trade at Edmonton, Calgary, and Lethbridge, are bestirring themselves to supply the new settler with the best information as to desirable lands and do all they can to help him make good.

The power derived from the hydro-electric plants at Niagara Falls is equal to the combined efforts of 45,000,000 able-bodied men.

Pearls, like diamonds, are found in different colors, and, oddly enough, the black pearl is the most expensive.

Agriculture On Up Trend

Farmers Have \$6,250,000,000 Invested In Country

Hon. T. A. Crear, president of the United Grain Growers, predicts that Canada's development in the next fifty years will be unparalleled in history. Agriculture in this country is just starting a great forward movement, he said, and farmers have already invested \$6,250,000,000 in the country.

Only the uninformed endure the agony of corn. The knowing ones apply Holloway's Corn Remover and get relief.

"So dark and yet so light," remarked the funny man as he looked at a ton of coal the driver had just delivered.

It is easier for a young man to fool his own mother than it is for him to fool any other woman.

GARGLE

ASPIRIN

Dissolve two "BAYER TABLETS OF ASPIRIN" in four tablespoonfuls of water and gargle thoroughly.

Swallow some of the solution. Don't rinse the mouth. Repeat gargle every two hours if necessary.

This is an effective gargle proved safe by millions and prescribed by physicians.

Safe Accept only "Bayer" package. Look for the "Bayer Cross."

Handy "Bayer" boxes of 12 tablets. Also bottles of 24 and 100—Druggists. Aspirin is the trade mark (registered in Canada) of Bayer Manufacture of Monacetic-acidester of Salicylic acid (Acetyl Salicylic Acid, C₉H₇O₄). While it is well known that Aspirin means Bayer manufacture, to assist the public against imitations, the Tablets of Bayer Company will be stamped with their general trade mark, the "Bayer Cross."

Exceptional Advantages Are Offered In Western Canada For The Sheep Raising Industry

No country in the world is perhaps better adapted than Canada for sheep raising and no country offers greater opportunities for the development of the industry. The physical features, the soil, the climate, and the agricultural population are all favorable to the production of mutton and wool of the highest quality. In most of the provinces there is an abundance of waste lands admirably suited to the raising of sheep. Furthermore, there are many farms, particularly in western Canada, that as yet are carrying no flocks. In eastern Canada on mixed farm lands and in the grain belt of western Canada the small flock of ten to fifty ewes is generally kept. These flocks can be maintained at little expense and return an excellent revenue for the labor required and money invested. In the rougher parts of eastern Canada and in some districts of Manitoba larger flocks of from one to several hundred head are kept under semi-ranching conditions, often by new settlers who may have been originally miners or fishermen. Many suitable areas are still available for the carrying of flocks of this size. In south-western Saskatchewan, southern and parts of northern Alberta, and in British Columbia, sheep ranching is practised quite extensively, but even in these provinces there are tracts of land awaiting ranching or semi-ranching purposes. On western farm lands, by utilizing stubble pickings, supplemented by a forage crop with a short finishing period of grain, the farmer could market choice market lambs towards the end of December.

The labor attached to sheep raising is not great and is more or less seasonal, lending itself readily to the order of events where grain farming is the major farm activity. The initial cost of a sizable flock is not large, and so if the best returns are not made at the start, the loss is not likely to be heavy. Expensive buildings are unnecessary for sheep and a cheap pole and straw shed is ample. No animal has a higher value for weed destruction than sheep. The sheep provides two sources of revenue annually. The lamb pays for its keep the first year with its fleece and at two years produces both wool and lamb. Statistically, the wool situation could not be better for the shortage of wool during the past year has been reflected in price values to the extent of around 10 cents for the lower grades and up to 15 cents or better for the finer wool. The prospects are that the sheep men in the business have several good years ahead.

The Dominion and provincial governments have repeatedly drawn attention to the possibilities for sheep ranching in this country through bulletins by the various agricultural departments. The Natural Resources Intelligence Service of the Department of the Interior, at Ottawa, has also published a report on the woollen industry and quite recently has issued a map showing in graphic form the extent and location of the various areas in Canada adapted from the standpoint of food supplies and climate for sheep ranching, copies of which are available, without charge, to those interested. A complete summary of the number and location of knitting mills is also shown on this map.

In this connection it may be interesting to quote a well known British authority with respect to the efficiency of Canadian woollen mills, namely Mr. Alfred F. Baker, professor of Textile Industries at Leeds University, who, following a visit of inspection to Canada and the United States in 1919, said:

"Upon the whole, the Canadian wool mills come up to the best Yorkshire—some few Yorkshire mills are better, many are very much worse. Quite a considerable part of Canada is so fortunate in climatic conditions that even in spinning and weaving no special arrangements, other than those made in Yorkshire, for example, are adopted.

"Hosiery mills are in evidence in every textile district of the Dominion and the equipment of those mills leaves little to be desired. The hosiery mills of the United States are possibly behind the hosiery mills of Canada, in fact some of the Canadian hosiery mills cannot be beaten."

W. N. U. 1667

Oriental in B.C.

Hold Property in Province Assessed at \$11,500,000

British Columbia's Oriental population today stands at about 46,000, or 82 Asiatics for every 1,000 whites. It was disclosed in a survey recently conducted by the provincial government all over the province. The report, which was made public by the department of agriculture, shows the Oriental population has grown rapidly of late but the Japanese are outstripping the Chinese and Hindus.

Oriental in British Columbia, according to the report, hold real property assessed at \$11,500,000; more than 3,000 Asiatics are licensed to carry on business of almost every kind in the province and attendance of Oriental children in public schools has increased at a startling rate, representing 3.3 per cent. of the entire school population. The Oriental school attendance is increasing at more than double the rate of the increase in total school population. The report further shows that the Oriental problem, once concentrated almost entirely in British Columbia, is beginning to hit the rest of Canada in a big way, at least with the sudden flocking of Orientals to the older provinces—a movement which is perhaps the most significant fact revealed by the investigation.

Pasture Sheep on Cheap Lands

Good Profits Reported in Alberta by This Method

In tests extending over the last five years the Dominion Government Farm has proved conclusively that it pays and pays handsomely to pasture sheep on the cheap land in the mountains during the summer, bringing them down to the irrigation lands for wintering and finishing. One flock numbering approximately 1,000 head, is reported to have shown a profit of over \$7,000 for the year and during the past four years profits have averaged close to \$5,000.

Canadian Horses for Russia

The Russian Government is to buy another herd of Canadian horses this spring. It was announced at the Alberta Provincial Horse Breeders' Association meeting by R. E. Wilson of Calgary, Dominion Government Agent. From 2,000 to 3,000 will be wanted.

Brown—I feel wretched. I haven't a friend in the world.
Burrows—You can make one right now, I need \$10.

Greater Berlin now has about 359 movie houses with some 140,000 seats, the record for Europe.

An Attractive Dress for Daytime Wear

Platts are the outstanding feature of the newest frocks—whether of one-piece or two. You are sure to be in the mode of this season with a frock like the one pictured here. The bodice front is gathered at the sides to a belt forming a panel, and the skirt has groups of platts in front, while the back is plain; the collar may be worn open or closed and the long sleeves are gathered to wrist-bands. No. 1443 is in sizes 16, 18 and 20 years. Size 18 (36 bust), requires 3 1/2 yards 39-inch, or 2 1/2 yards 54-inch material. Price 20 cents the pattern.

Our Fashion Book, illustrating the newest and most practical styles, will be of interest to every home dress-maker. Price of the book 10 cents the copy.

Three Prairie Universities Will Try To Solve Problem Of Tough And Damp Grain

Western Rye Grains

Best Hay Crop in Sections Where Moisture is not Abundant

Western rye grass has established itself as a valuable hay and pasture crop for the sections of the prairie provinces where moisture is not abundant enough to permit of the successful growing of timothy. Recent tests of the grass at the Lacombe, Alberta, Experimental Station, have fully borne out expectations as to the value of this fodder. In competition with Bromegrass, different strains of timothy, and with Kentucky blue grass, western rye grass was easily first, outyielding the other grasses by a considerable margin.

It is interesting to note in this connection that of the strains of rye grass tested in the experiments, "Grazer," a variety developed by the Central Farm at Ottawa, outyielded the commercial varieties used. Yet, according to the latest report of the Dominion Agronomist, there have been new varieties recently developed at the Central Farm which appear to be considerably heavier yielding than "Grazer." It is therefore expected that within a very few years further strains will be generally available that will produce more profitable yields than those in use at present.

Work of Colonization Association

Total of 1,661 Families Settled on Land as Result of Efforts

During 1926 the Canada Colonization Association settled 734 families on 168,094 acres in Western Canada, 59,678 acres of which were in the Province of Manitoba, according to T. O. F. Herzer, manager of the Association. Since the Canadian Pacific Railway took over the Canada Colonization Association on January 1, 1925, a total of 1,661 families have been settled, taking up 402,566 acres of land worth with equipment between \$18,000,000 and \$19,000,000. Forty-five per cent. of this land is in Manitoba, 30 per cent. in Saskatchewan and 25 per cent. in Alberta.

Swift Current is Growing

Building permits issued at Swift Current for 1926 nearly doubled those of 1925, being \$161,755 as compared with \$85,020. Recent growth has been phenomenal. Permits for 1923 were only \$14,800 and those for 1924, \$35,250.

Alberta's Agricultural Production

Alberta's agricultural production in 1926 was of a value of \$255,900,000, very carefully estimated, according to the Hon. George Hoadley, Minister of Agriculture, as quoted in the Calgary Herald.

Research work of the highest importance to all the wheat farmers of Western Canada in regard to the problem of damp and tough grain is to be carried out at the three prairie universities and the Dominion Grain Research Laboratory at Winnipeg, under the direction of the National Research Council of Canada.

About a year ago the National Research Council appointed an associate committee on grain research to look into various important problems connected with the production and marketing of grain. At its organization meeting last year, this committee drew up a comprehensive program of investigation, particularly with regard to wheat, involving factors affecting milling and baking quality, commercial grading, and certain disease problems.

A special meeting of this committee was held in Winnipeg recently for the purpose of consulting with the Board of Grain Commissioners and representatives of the Wheat Pool in regard to the pressing problem of damp and tough grain. The meeting was held in the office of the grain board. There were present, representing the grain board: Commissioners Boyd, Robinson and Snow, secretary Rathbone and Dr. F. J. Richard, chemist of the board; representing the National Research Council Associate Committee, Dr. H. M. Terry, president of the National Research Council, Dr. R. Newton, professor of agronomy, University of Alberta; Dr. T. Thorvaldson, professor of chemistry, University of Saskatchewan; and T. J. Harrison, professor of field husbandry, University of Manitoba, representing the Grain Appeals Board, Mr. George Serk; representing the Saskatchewan Wheat Pool, Messrs. H. Marsh, Brooks Cotton and A. F. Sproule; representing the Central Selling Agency, W. A. MacLeod.

The meeting discussed the basis for the spread in prices between straight grades and tough or damp grades and the possible effects on milling and baking quality of the methods of drying now employed. These two questions were considered of urgent importance on account of the very large amount of damp and tough grain coming on the market this year. Due to the great uncertainty on these two points it was decided to undertake at once an investigation of the whole matter. The members of the grain board and the representatives of the Wheat Pool assured the committee that all necessary facilities for carrying out this investigation in existing drying plants would be made available, and that the committee would have the hearty co-operation of both bodies.

The first step to be undertaken will be a survey of the methods now employed in grain drying. This will be followed by a comparative study of the different methods, with a view to determining which is most advantageous from the point of view of economy and the resulting quality of the dried product. It is believed by members of the research council that this investigation will also provide a more satisfactory basis on which to determine an equitable spread in price between the different grades.

In order to make the investigation as thoroughgoing as possible, the universities of Manitoba, Saskatchewan and Alberta will act in co-operation with the Dominion Grain Research Laboratory at Winnipeg and with the other agencies concerned. Milling and baking test laboratories of the most modern type have already been installed at the universities of Alberta and Saskatchewan, and the University of Manitoba is in process of installing the same equipment. Tests will be repeated in all these laboratories so that there may be no question of the complete reliability of the conclusions reached.

Dr. Tory pointed out to the meeting that the associate committee of the research council felt a very grave responsibility in undertaking an investigation involving questions of such importance to both the producer and the grain trade. He doubted if a research of such magnitude had ever heretofore been undertaken in Canada.

A good talker is always delighted when he encounters a good listener.

Montreal Greet Their Excellencies

A striking impressive spectacle was presented at the C.P.R. Windsor Street Station, Montreal on the occasion of the first official visit to that city of their Excellencies, Viscount Willingdon, Governor-General of Canada, and Lady Willingdon. A guard of honor of a hundred men of the Royal Highlanders of Canada under the command of Major Erskine Buchanan

was drawn up at attention in the great concourse of the station and a brilliant array of generals and other officers took part in the ceremony. As their Excellencies approached the men the Highlanders Band broke into the strains of the National Anthem as the Royal Salute was given to the representatives of the King and Queen and the Royal standard was

dipped in greeting. The Governor-General and Lady Willingdon very kindly consented to pose for the assembled press photographers and the resulting print shows from left to right: Major Erskine Buchanan, Brigadier-General W. B. M. King, general officer commanding military district No. 4; and their Excellencies, Lord and Lady Willingdon.

WORLD HAPPENINGS BRIEFLY TOLD

There are 143,500,000 people in Russia, according to preliminary official estimates. This is an increase of thirty-eight per cent. since 1897.

The Saskatchewan wheat pool has taken out a \$100,000 building permit for a drying plant, at its terminal elevator in Port Arthur.

General Sir George W. A. Higgins, who won promotion for his service in the Crimean War, is dead at his home at Ghydeneson, Marlow, on Thames.

Discovery of a supposedly new comet of the eighth magnitude is announced in a cablegram received at the Harvard Observatory from the astronomical clearing house in Copenhagen. It is to be called Reid's comet.

Twenty-seven rebels have been executed by the military authorities in Oaxaca City in reprisal for the massacre of a small Federal column which was annihilated by rebels in San Miguel El Grande on January 12.

President Kruger's traveling wagon which it was announced in November, the City of London corporation had decided to offer to the Dominion of South Africa has been shipped to South Africa.

They Can Be Taken By Old and Young Alike

Saskatchewan Lady is Very Enthusiastic About Dodd's Kidney Pills

Mrs. E. M. Tatton Gave Them to Her Little Boy Who Was Suffering From Urinary Trouble.

Waldron, Sask. (Special). "Ever since my little boy was born he has suffered with involuntary urination," writes Mrs. E. M. Tatton a well known resident of this place. "I thought he would grow out of this but he did not do so. At times I thought it was pure laziness and tried to spank him, until I discovered it was not the child's fault, but kidney weakness. I tried Dodd's Kidney Pills with great success and he is never troubled now. My husband and I use them frequently whenever we have pains in the back."

Dodd's Kidney Pills have become a family remedy because people have tried them and found them good. They help Rheumatism, Lumbago, Diabetes, Lame Back, Heart Disease and Urinary trouble, because all of these are either kidney diseases or are caused by the kidneys failing to do their work.

Hubby: "Kind hearts are more than clarinets."

Wife: "Wig, Henry, that isn't right. It's 'Kind hearts are more than coronets'."

Hubby: "Well, I knew it was some kind of a musical instrument."

Delivery Horses in Demand

Reserve Animals Always Needed to Fill Up Gaps

Clean, upstanding horses, sixteen hands high, especially strong in the legs, weighing from 1200 to 1500 pounds, and single broken, are the type of animals business firms want for delivery horses, members of the Saskatchewan Horse Breeders' Association were told at their annual meeting by Arthur Newman, Winnipeg. Mr. Newman was speaking for the larger firms in that city who require a number of horses for service on their delivery wagons.

"There are over 400 delivery horses in daily service in Winnipeg," Mr. Newman stated, "and reserve animals are needed at all times to fill up the gaps in the ranks. Only one in ten of the animals we get now are single broken, and you can imagine the difficulty of breaking them in busy streets of Winnipeg. Any farmer who has a horse, or number of horses, answering the description of what we consider the 'Typical Delivery Horse' will always be able to sell them, and at good prices."

Shirring is Modish This Season

This charming frock would be very effective if fashioned of crepe satin or velvet. The two piece skirt is shirred to the bodice in an attractive manner, thereby achieving a soft self-trimming. Tulle is fastened at the left side of the round neck and falls gracefully to the hem. Long sleeves may be added and would make this a very smart afternoon frock. No. 1496 is for misses and small women and is in sizes 16, 18 and 20 years. Size 18 (36 bust) requires 2 1/2 yards 54-inch material, or 2 3/4 yards 54-inch, and 5/8 yard 36-inch lining; 3/4 yard tulle. Price 29 cents the pattern.

Home sewing brings new clothes within the reach of all, and to follow the mode is delightful when it can be done so easily and economically by following the styles pictured in our new Fashion Book. A chart accompanying each pattern shows the material as it appears when cut out. Every detail is explained so that the inexperienced sewer can make without difficulty an attractive dress. Price of the book 10 cents the copy.

Minard's Liniment for animal ailments.

Is Now Important Industry

Cost of Raising Reindeer in Alaska is Very Low

More than 350,000 reindeer, distributed in 110 herds, are now being kept in Alaska, according to statistics and thirty-three and forty-five per cent. annually. Within recent years, the raising of the animals has become an important industry. They are known as "three-way" producers, useful for food, clothing and for transportation, and in some sections, are supplanting the dog teams for hauling. The cost of producing averages only about \$1 a year for each reindeer. While prices of \$10 to \$12 are realized in the butcher markets. Between 1918 and 1925 nearly 2,000,000 pounds of reindeer meat was exported from Alaska. The government is endeavoring to improve methods of control and management of herds and the grazing facilities. It is said that the country can afford pasturage for at least 3,000,000 animals.

SICK CHILDREN LOVE "CASCARETS" FOR THE BOWELS

Give "Candy Cathartic" for a bad cold, sour stomach, constipation

Get a ten cent box now.

Most of the ills of childhood are caused by a sour, disordered stomach, sluggish liver and constipated bowels. They catch cold easily, become cross, listless, irritable, peevish, restless, tongue coated, don't eat or sleep well and need a gentle cleansing of the bowels but don't try to force a nauseating dose of oil into the little one's already sick stomach. It is cruel, needless and old-fashioned.

Any child will gladly take Cascarets Candy Cathartic which act gently—never gripe or produce the slightest uneasiness—though they cleanse the little one's system, sweeten the stomach and put the liver and bowels in a pure, healthy condition.

Full directions for children and grown ups in each package.

Mothers can rest easy after giving this gentle, thorough laxative which costs only 10 cents a box at any drug store.

The longest calendar year on record was 47 B.C. It contained 415 days, by order of Julius Caesar, in order to make the seasons conform to the solar year.

Miller's Worm Powders will eradicate the worm evil that bears so heavily on children and is believed to cause many fatalities. They are an acceptable medicine to children and can be fully relied upon to clear the food channels thoroughly of those destructive parasites and restore the inflamed and painful surfaces to healthfulness. They are an excellent remedy for these evils.

Agriculture in B.C.

Farming Population Has Doubled Within Ten Years

There are 22,000 farmers in British Columbia and a total farm population of 90,000, according to the Hon. E. D. Barrow, Minister of Lands. He pointed out that the farm population has doubled in ten years and that within this time dairy products had risen from \$3,000,000 to \$10,000,000 in value. Total farm production rose during the ten-year period of 1915 to 1925 from \$21,000,000 to \$67,000,000.

Exhausted from Asthma. Many who read these words know the terrible drain upon health and strength, which comes in the train of asthmatic troubles. Many do not realize, however, that there is one true remedy which will usually stop this drain. Dr. J. D. Kellogg's Asthma Remedy is a wonderful check to this enervating ailment. It has a countless record of relief to its credit. It is sold almost everywhere.

Consumption of hard liquor in Germany last year was only one-third that of pre-war times.

The Best Laxative He Ever Tried

Mr. W. J. Dorion, New York, writes: "Sick headache, indigestion and constipation have troubled me for years. I tried everything but I can truthfully say your CARTER'S LITTLE LIVER PILLS is the best laxative I have ever used. I find that they are small, easy to take and their action does not pain me. They keep me regular and I want to tell you how I appreciate this purely vegetable medicine, knowing, due to my experience in laboratory work that laxatives, containing Mercury, Calomel and other poisonous drugs are injurious."

CARTER'S LITTLE LIVER PILLS are sugar coated, small, easy to swallow, and everyone in the family can take them in perfect confidence as they are a doctor's own formula.

CARTER'S LITTLE LIVER PILLS in red packages 25c. and 75c.

SUNDAY SCHOOL LESSON

FEBRUARY 13.

MAKING OUR HOMES CHRISTIAN

Golden Text: Let us love one another; for love is of God.—1 John 4-7.

Lesson: Ephesians 5:25 to 6:4.

Devotional Reading: 1 Corinthians 13:1-7.

Explanations and Comments

1. The Duty of Husbands to Love Their Wives. 5:25-33.—"Husbands," counsels Paul, "love your wives, even as Christ also loved the church, and gave himself for it." Paul sets a high standard for a man's love for his wife when he declares that it should correspond to the self-sacrificing love of Christ for the church, that it should be capable of suffering and dying for her as Christ died for the church.

"Would we codify the laws that should reign in households, whose daily transgressions annoy and mortify us and degrade our household life, we must adorn everyday with sacrifice. Good manners are made up of petty sacrifices."—(Emerson.)

Paul goes on to state the object of Christ's sacrificial death—the setting apart and consecration of the church by cleansing of guilt by baptism "in accordance with the divine promise (or, on the ground of the preached word of the Gospel)," with a view to its ultimate presentation to himself as a glorious church, holy, without spot or blemish. Even as Christ loved the church, so ought husbands to love their wives. He that loveth his wife, loveth himself.

"Although the husband's love for his wife may be compared to what is called his love for himself, inasmuch as it leads him to regard her welfare as his own, and to feel all that concerns her as if it concerned himself, the two loves are certainly different in their essence. There is no emotion in self-love; it is the product of reason, not of feeling; and it is a 'law' of man's nature, not in the sense of obligation but in the sense that it necessarily belongs to a rational creature. The basis of conjugal love is altogether different, and is to be found, not in the rational part of man's nature, but in the affections. The love is reinforced by reflection, and made firm by the sense of duty; but it can never become a merely rational regard for another's happiness, as 'self-love' is for one's own."—(T. K. Abbott.)

IF STOMACH IS TROUBLING YOU

Instantly! End Indigestion or Stomach Misery with "Pape's Diapepsin"

As soon as you eat a tablet or two of "Pape's Diapepsin" your indigestion is gone! Heavy pain, heartburn, flatulence, gases, palpitation, or any misery from a sour, acid stomach ends. Correct your stomach and digestion for a few cents. Each package guaranteed by druggist.

Many English people caused their friends some thought and uncertainty by sending them a Christmas card in the form of a cross-word puzzle, which, when solved reveals the identity of the sender.

Athletes use Minard's Liniment.

Alberta Oil Production

Alberta's petroleum production will exceed 200,000 barrels for 1926, when all returns are in, according to Government estimates. This compares with 183,000 barrels in 1925. The production of Royalite No. 4 well, in Turner Valley, exceeded 190,000 barrels for the year up to November 30th, the average production being 528 barrels of naphtha per day.

There isn't anything chicken-hearted about the game rooster.

Relieve Asthma with Minard's Liniment.

Adopt English Word "Home"

The French have adopted the English word "home." The lack of its equivalent in the French language always has been remarked by English speaking people, with an air of patronizing pity. Department and furniture stores now advertise articles for "le home," and newspapers use this word as a caption for domestic and women's news.

A DOCTOR'S PRAISE

A Noted Doctor Strongly Endorses Dr. Williams' Pink Pills

The test of any remedy lies in its acceptance and employment by the qualified medical practitioner. No less an authority than Dr. Andrea Amiel, physician to the Papal household, writing on the subject of anaemia, impoverishment of the nervous system and disorders attributable thereto, strongly endorses Dr. Williams' Pink Pills, recommending them as superior to other tonics.

Dr. Amiel's testimony reads as follows:—"For several years I have made use of Dr. Williams' Pink Pills in my work and I have always found them efficacious in the treatment of disorders due to impoverishment of the nervous system, anaemia and neurasthenia, stomach weakness, retarded development in young women, and irregularities. There is no lack of tonic remedies, but in my experience no one of them manifests a superior efficacy to that of Dr. Williams' Pink Pills."

No more conclusive evidence of the value of Dr. Williams' Pink Pills could be asked for or given, than is found in the above endorsement of this noted European physician. Besides this, however, this medicine has enjoyed a world-wide public confidence for more than a third of a century and has brought relief to thousands and thousands of weak and suffering people.

Try Dr. Williams' Pink Pills for anaemia, rheumatism, neuralgia, nervousness and stomach trouble. Take them as a tonic if you are not in the best physical condition and cultivate a resistance that will keep you well and strong. You can get these pills through any medicine dealer or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Hebrideans for Alberta

Fifty Hebridean and Northern Irish families will be established in a new colony at Saddle Lake, Alberta, early this spring. This will be the second settlement of its kind in this province—the first having been established north of Vermilion. Buildings are now being erected on fifty farms at Saddle Lake and it is expected that new arrivals will take over holdings there as soon as necessary arrangements can be made.

Warden: "What! You back again?"

Convict: "Yes. Any letters or parcels for me."

Became So Weak Could Hardly Stand

Mrs. Wm. Palmer, Tomahawk, Alta., writes:—"Last spring I had a long spell of sickness and became so weak I could hardly stand. I could not sleep at night as the least little noise would wake me up. I tried blood tonics and other nerve pills, but they did me no good, and I was getting worse."

I wrote my mother about my condition, and she sent me three boxes of

After the first box I was feeling much better, so I kept on until I had used the three boxes, and now I feel as well as ever I did when I was a young girl." Price 50c, a box at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

Mothers Treat Colds The New "Direct" Way

No Longer Necessary to "Dose" Children With Internal Medicines to Break Colds.

Children's congestions are easily upset by too much "dosing." Vicks VapoRub being externally applied, does not upset little stomachs.

At the first sign of croup, sore throat, or any other cold trouble, apply Vicks freely. There is nothing to swallow—you just "rub it on."

Linking Empire By Beam Radio Phone

Successful Experiments With Canada Make Plan Possible Says Marconi

William Marconi, describing the rapid development of the beam system during a speech at London, said that recent experiments between England and Canada proved it was possible to maintain easily a clear simultaneous telephone conversation and high speed transmitting and receiving telegraphic messages without the slightest hindrance.

This meant, he explained, that it will soon be possible to establish such simultaneous services with Australia, India, South Africa and other distant countries served by beam stations and as both services use the same plant communications will be cheaper.

CHILBLAINS

Zam-Buk soon allays the inflammation and swelling, soothes the itching pain, and restores the skin to its normal condition. Where skin is broken, festers or ulcerated Zam-Buk is doubly valuable because of its great healing and antiseptic power.

Zam-Buk

as to whether she had mocked him, defied him, or merely teased him.

"That is an unpleasant sentiment," he said. "I, at least, of all your conquests, have asked nothing of you. I shall, of course, ask much, but not too much. And, I promise I shall accept your gift, whatever it may be. You remember I promised that a long time ago."

"And have bided your time. Why?" "I have been waiting, more or less patiently, until you had found yourself. You see I preferred not to take unfair advantage of you. Others have, I believe."

Now she smiled up at him, but wistfully. "You must have had great patience, waiting!" she exclaimed. "It has been terribly hard for me to find—me! Hasn't it? And the worst of it is, I'm still hunting." He waited for her to acknowledge his concluding words—that he would not, as he thought others had, take advantage of her. But she ignored that. Before he was ready to speak, she touched his arm and then raised her hand, like a princess bounding her domain, take in the whole expanse of the Amette acres.

"Perhaps I'll find something here, when the lights are lit and the roses hung, and the people have come. Or, perhaps you will. Who knows?" Suddenly she was serious. "It will cost enough," she added, "at any rate. Yvonne and I went over the estimates this morning. Mr. Eggleston will be shocked when the bills reach him. More than a hundred thousand dollars, I'm sure. You have made me very extravagant, you know."

"Whatever you do, must be done well," he retorted. "Isn't that a befitting ambition? I have understood, you see, that you look upon your money as a means to excitement. You will have it, when your fete is in full swing, and the memory of it will be just exhilarating. Why should one bother with costs?"

"Why, indeed?" she agreed briefly. They walked across to the Trianon summer house, skirted it, and came to the most pretentious of all the temporary structures being erected on the estate. Around an open space the slender columns of wood that had been especially made were being set so close to form an almost unbroken wall like the pillars closing in the name in some great outdoor temple. The columns stood in two rows, forming a continuous pergola over a wide path that completely skirted the enclosure.

Inside the columns gardeners were busy grading the lawn so that it sloped gently, as a theatre auditorium, to a broad stage that had been raised on short pillars, fixed like piles, into the ground. Over all the workmen were, hanging a latticed canopy of trellis. For whatever entertainment was planned for the spacious stage, around which wings and curtain frames were being placed, fully 300 spectators might sit comfortably between the

pergola walks. For that many folding chairs were already piled under a canvas blanket near by.

When they stood between the pillars and saw that this structure was further advanced than any of the other preparations, Brandon asked:

"You still insist upon keeping this part of your program a secret?"

"Yes," she replied: "you shan't know anything about this, or what I'm going to do here, until you come in under the blossom laden room and take your seats. I'm having great fun planning my little surprise."

"Am I forbidden to speculate?"

"You are not, but you will be unsuccessful. It's to be my idea of the climax. I've asked everyone I know to remember the most sensational things other tenants of Amette have done to make their fetes remembered. I know about them all, from the feast presided over by the Indian rajah who presented his chosen lady the carpet of diamonds that was Naumahal's nuptial rug, to the Moor who made a lake and had his servants suddenly throw all the women into it, I want to excel them both. There must be something startling by which to remember the Golden Girl's fete." She brushed his arm with her fingers. "Mustn't there be?" she asked.

(To be Continued.)

BABY'S WELFARE DURING FEBRUARY

Should be Most Carefully Guarded by All Mothers

February is one of the hardest months of the year on little ones. It is a month of cold, blustery days that prevent the mother taking her baby out for the fresh air so necessary to its welfare. Baby is consequently confined to the home. More often than not the rooms are overheated and badly ventilated and the little one catches cold or gripe. What is needed to keep the baby well is a gentle laxative that will regulate the stomach and bowels; banish constipation and indigestion and in this way will either prevent or break up colds and gripe. Such a laxative is found in Baby's Own Tablets. They are mild but thorough in action; are absolutely safe and they are guaranteed to contain neither opiates or other harmful drugs. They never fail to be of benefit to little ones and may be given to either the newborn babe or the growing child.

Baby's Own Tablets are sold by all dealers in medicine or may be had by mail, post paid, at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Little Helps For This Week

Be thou an example . . . in word, in conversation, in charity, in spirit, in faith, in purity. —I Tim. iv. 12.

For no one doth know
What he can bestow;
What light, strength, and beauty may
After him go;

—Thus onward we move,
And give God above,
None guesseth how wondrous the journey may prove.

Others are affected by what I am, and say, and do. And these others have also their sphere of influence. So that a single act of mine may spread in widening circles through a nation or humanity.

William Ellery Channing.

The doors of your soul are open on others, and theirs on you. Simply to be in this world, whatever you are, is to exert an influence,—and influence compared with which mere language and persuasion are feeble.

Horace Bushnell.

U.S. Motorists Spend Millions

Automobile tourists from the United States entering Canada in 1926 left a gross revenue in the Dominion of about \$194,000,000, according to a careful estimate made by A. W. Campbell, Dominion Commissioner of Highways. In 1925 the estimated gross revenue from this tourist traffic was \$188,555,510.

For Scalds or Burns.—Dr. Thomas' Electric Oil is a standard remedy for the prompt treatment of scalds and burns. Its healing power quickly soothes the pain and aids a speedy recovery from the injury. It is also an excellent remedy for all manner of cuts, bruises and sprains, as well as for relieving the pains arising from inflammation of various kinds. A bottle in the house and stable saves many a doctor's and veterinary's fee.

Words to the number of 500 per minute can be sent over a new cable now working between London and New York.

Doctors vouch for Minard's Liniment.

May Erect Power Plants

Saskatchewan Investigating Possibilities of Producing Electrical Energy

The Saskatchewan Government has appointed a commission to enquire into the feasibility of erecting power plants throughout the province. The personnel consists of Messrs. L. A. Thornton, of Regina; Arthur Hitchcock, of Moose Jaw; Prof. A. R. Grieg, of Saskatoon; and R. N. Blackburn, chief mechanical superintendent of the province. The Government considers the present move advisable, bearing in mind the recent and prospective growth of the province and the advancement in the science of producing and distributing electrical energy. The discovery and survey of water powers within the province are such as to warrant the present undertaking, it is said.

It Bids Pain Begone.—When neuralgia racks the nerves or lumbago cripples the back is the time to test the virtues of Dr. Thomas' Electric Oil. Well rubbed in it will still the pain and produce a sensation of ease and rest. A trial of it will establish faith in it.

Inspector—"What do you do to keep the milk pure?"

Milkman—"Why, I sterilize the pump morning and evening."

Teeth resemble verbs: they are regular, irregular and defective.

Nothing Like It to Relieve Colds

In formula and action, Buckley's Mixture is different from all other remedies. It literally "acts like a flash" in conquering coughs and healing the inflamed parts. Strange, Romantic Love Adventures of the Happier you know!

Joanna
by H. L. GATES

Copyright 1925 by H. L. GATES

Published by arrangement with First National Pictures, Inc.

CHAPTER XXVII

Jealousy

The wide grounds of Villa Amette, reaching down the slope of Cap Martin to the sea, began to assume new perspectives of their transformations. The speculative group of workmen that had begun, two weeks before, to place their stakes, had now become a busy crew that numbered scores.

Pavilions, pergolas and stretches of polished dance floors bordered by great potted palms brought from Cannes were taking definite shape. Graceful columns, slender and carved into semblance to fairy spires rose in companies that later were to be hung with trailing green and hidden lights.

Joanna and Brandon strolled through the lawns on their customary daily inspection. Workmen touched their caps to the Golden Girl with their curiosities shining in their eyes. To them she was of more interest than the preparations they were making for the fete of which the entire Riviera talked. For a one night's whim of this strange, restless girl their hands erected an arbored bower to be covered, for this night with the choicest roses culled from the garden of the Monegasques in the Condamine.

The cost of the roses alone would equal far more than the year's pay of any workman. Around a miniature lake a carpet of lemon wood was being laid, and for the surface of the water, that would be pumped into the lake, a canopied bark such as a Cleopatra might have envied was being hewed from cedars. This cost, too, would have sent the children of a family to

school for a year, freed a household from its fear of old age poverty, dowered a daughter or erected a home for a son and his bride. But the bower would do its service for a night, provide nothing more perhaps, than a fragrant screen for a stolen caress, and then, on the morrow, be contemptuously demolished.

The workmen at Villa Amette tried vainly each day to fit the stupendous folly into the fresh and lovely youth of the girl who walked among them each morning and thanked them prettily, when they touched their caps, for the progress they had made. Older ones among them, and those who were more thoughtful, glanced from the Golden Girl to Brandon, who walked with her. Sometimes their faces darkened and they muttered to themselves. For, after all, was it not Brandon, who urged them, with his ironic smile playing at his lips, to spare no expense? Was it not Brandon, rather than the Golden Girl?

Brandon and the girl stood on a knoll that the landscape gardener had left on the hillside, and surveyed the scene that spread out before them. "Whatever celebrity has been withheld from you," Brandon observed, "will come to you after the echoes of this have reached to Nice, to Genoa, and to Paris itself. Amette has provided some splendid gaudes in his history; you are promising to outshine them all."

Joanna did not reply. Brandon looked down at her. She stood close to him, and he saw that her glance was roving over the grounds mechanically. He noted that there was little of the accustomed light of eagerness in her face. Joanna had not laughed or smiled as much or as often since John's arrival in the vicinities of Villa Amette. She had been gayer, if anything; more reckless, more persistent in her whimsical escapades. But Brandon, who studied her, sensed a shyness in her merriments.

"It will be said of me," she murmured, at last, "that I will have earned indeed the name they have given me, Golden Girl, won't it?"

"No one doubts your right to that admiring designation now," he assured her. "Yet, until now, you haven't been so careless of the fortune that was entrusted to you, as is generally believed, isn't that right?"

She shot him a quick, almost startled glance, and then fell again to calmly examining the Amette vistas of groves and gardens peopled with noisy workmen. "You would not expect me ever to admit that I had been careless, would you?" she asked quietly. "I have done as we planned I should, as you and Yvonne and I planned after Graydon and Mr. Eggleston refused to help me with their advice. I have bought whatever seemed good to buy. That is all."

"You have been spared big jewelers' bills, I must admit," Brandon remarked, dryly. "Kennilworth, Michael, Dorminster—even I, have gathered a great deal of happiness in finding for you the ornaments you like."

"And when," she asked, softly, but very clearly, "are you going to exact your toll—or demand it?"

She didn't look up at him, nor move. For an instant Brandon was uncertain

Does Weakness Detract From Your Good Looks?

—Photo by Michelswaite

Mrs. Thomas Chapman of 3 Somerset Place, Toronto, Ont., whose picture appears here, said: "Dr. Pierce's Favorite Prescription was very helpful to me and I know it to be the very best medicine a woman can take when nervous and run-down. I had a break-down—my nerves were so upset I could not sleep. I also suffered from nervous indigestion, but after taking Dr. Pierce's Favorite Prescription I did not suffer with indigestion and I could get a natural night's rest, which I could not do before. No woman can appreciate what a wonderful medicine the 'Favorite Prescription' is until she gives it a trial.

All druggists, Tablets or liquid. Write Dr. Pierce, Pres. Invalids' Hotel, Buffalo, N. Y., for free advice.

FACE COVERED WITH PIMPLES

Surrounded by Blotches.
Suffered Three Months.
Cuticura Healed.

"My face was covered with sore pimples that were surrounded by white blotches that itched and burned causing me to scratch. Scratching caused eruptions and my face was disfigured. For three months I suffered this torment.

"I tried several remedies without results. My mother advised me to try Cuticura Soap and Ointment so I purchased some. After using them a short time the terrible itching was greatly relieved and in three months I was healed." (Signed) Miss Mandy Siren, Radway Center, Alta.

Use Cuticura for every-day toilet purposes. Bathe with Soap, soothe with Ointment, dust with Talcum. Sample Each Free by Mail. Address Canadian Agents: "Buckeye Ltd. Montreal." Price, Soap 25c, Ointment 25c and 50c, Talcum 50c. Cuticura Shaving Stick 25c.

colorful love scenes
--all here to thrill
and inspire, in one
of the year's finest
films.

—Dr. Hessen, dentist, will be at
the Carbon Hotel on Friday and
Saturday, Feb. 25 and 26, for the
practice of his profession.

APPLE SAUCE

Ministers are always starting
lengthy arguments—Marriage.

Laugh and the world laughs with
you. Weep, and the rouge comes
off.

A spinster encountered some
boys in the old swimming hole, mi-
nus everything but nature's garb,
and was horrified.

"Isn't it against the law to bathe
without suits on, little boys?"

"Yes'm," announced freckled
Johnny, but Jimmy's father is a
policeman, so you can come on in."

"I'll never forget the night you
proposed to me," said the wife.
"You acted like a fish out of wa-
ter."

"Yes, I was a sucker."
Then the gong sounded for the
first round.

When Noah sailed the ocean
blue,

He had his troubles as well as you,
For days and days he drove the
ark

Before he found a place to park.

The minister announced his text
"Paul we know and Appollos we
know, but who are these?"

Just then the verger was show-
ing two strangers into a pew, so in
a loud whisper he said, "two com-
mercial travellers from Calgary."

An optimist is a man who looks
in the hole after losing a golf ball.

Doctor—Your temperature seems
to have taken a drop.

Patient: Can't you fix it so that
I can do the same, doctor?

Collector: I shall call again to-
morrow, when I trust you will be
prepared to pay the bill.

Mr. Needy: Yes, do drop in.
It's a pleasure to entertain an op-
timist like you.

This, from the Lethbridge Herald,
is hard to surpass: "A farmer moved
onto a half section in the Iron
Springs district last spring. He got
in a good crop; irrigated carefully
and watched results. He threshed a
\$6,000 crop in this first year; paid
\$2,800 on his land; \$1,600 on equip-
ment and cleared off a \$400 loan.
This left him a comfortable balance
of \$1,200 to go on with."
